# Using the Computer Lab
games, search, e-mail

**Go to a Website:**
- Click on Google Chrome.
- Click once in the address bar at the top of the screen.
- Type the website address.
- Press Enter on the keyboard.

**Play Games:**
- Go to one of the following websites and play:
  - pogo.com
  - zone.msn.com
  - king.com/games
- You do not need to create an account or sign in to play many of the games.
- Many of the games load ads first. Wait for the ad to finish and the game will appear.

**Search the Internet:**
- Go to google.com.
- Type in what you are looking for.
- Think about what you find.
  - Does the information look correct?
  - Do you recognize the website address?
- Do not trust everything you find online.

**Check Email:**
- Go to the email site (for example, gmail.com or mail.yahoo.com).
- Log in using your email address and password.
- Make sure the box before stay logged in is not checked.
- When you are done, log out of your email.
